Dear Parents and Caregivers

This term in mathematics, we are focussing on improving every student's knowledge of basic facts. To encourage this, we are holding a sponsored Math-a-thon in Week 4 of this term.

Monies raised from the math-a-thon will be used to purchase educational resources. Your child will work at an appropriate level to develop their basic facts knowledge. S/He will be given a list of up to 100 basic facts to learn at home and school over the next two weeks.

A sponsorship form is coming home with this information sheet and your child is being asked to collect sponsors during the next two weeks for this event. It would be great if your child could collect sponsorship from family, friends and work colleagues. We do not encourage the children to go from door to door to seek sponsors unless they have an adult accompanying them.

All sponsorship forms need to be brought back to school by Friday 7 August and given in to your child's teacher.

The basic fact test will be given to the students during Week 4 of this term (10 – 14 August), after which your child's correct results will be entered on the sponsorship form. Your child will then bring the sponsorship form home and collect the amounts promised by individual sponsors. Please ensure each sponsor signs the form when they give the money to the student. All monies and signed sponsorship forms need to be back at school by Friday 28 August.

Please don't hesitate to contact us if you have any queries. Thanks you for your support!

PLIMMERTON SCHOOL

MATH – A – THON

SPONSORSHIP FORM

Dear Sponsor

I am taking part in a sponsored basic fact Math-a-thon at Plimmerton School, so that I can improve my knowledge in mathematics and also help to raise money for educational resources.
It would be great if you were able to sponsor me.
Thank you!
